Flat Roof Model 486U

Advanced Weather Protection

Select the DJK486U for flat or tapered insulation roofs where curb installs are ideal or specified for the project. Curb installs provide ultimate water penetration protection and offer the convenience of easy removal if needed.

When you need a versatile installation for the energy efficient DryerJack, curb is the solution.

IMC 504.4 & IRC 1502.3 Compliant

Build your own wood curb or install a prefab unit that many sheet metal supply houses offer.

Key DryerJack 486U Benefits

- Flapper Closure Deters Bird and Rodent Entry
- Collar and Curved Damper Maximize Airflow
- Water-tight Collar Doubles Weather Protection
- Taller Profile Provides Extra Clearance
- Access Door Accommodates Cleaning Tools
- Built in Curb Mount for Flat Roof Installs

This model DryerJack is built to last in the U.S. and made from heavy gauge galvanized steel.

Laboratory tested to less than 0.01 water column inches of airflow restriction, DryerJacks are efficient. Better airflow performance is achieved through attention to engineering detail including damper curvature, hood size and collar placement.

Ultimate Water Protection Model

**General Information**

**Benefits:**
- Venting through the roof can shorten duct length
- Zero back pressure lengthens appliance life
- Improved efficiency shortens cycles, saves energy
- Damper design deters bird and rodent entry
- Access features ease duct cleaning & maintenance

**Features:**
- Heavy gauge Galvalume®
- 2 3/4” curb for flat roof elements protection
- Equally suitable for new and retrofit construction
- Watertight extended collar for secure docking

**Material:**
- 26 gauge Galvalume®
- Single Unit Weight: 7 lbs.

**For Use:**
- Non-restrictive dryer roof vent termination
- Complies with IMC 504.4 & IRC 1502.3
