

Engineering Advantages Deliver Superior Value & Performance

DryerJack[®]

Key Features

Advanced Model 477

**Made in
the USA**

The DryerJack[®] 477 is deep-draw manufactured of Galvalume[®] steel and is also available in three powder-coated colors. As the leader in providing a vent termination that meets or exceeds the demanding needs of venting a dryer, the DryerJack is *the* code compliant choice. The deep draw process delivers a seamless hood providing extra protection against the elements as well as a sleek look for improving home aesthetics.
